Nordegg Days: Traffic Flow & Community Responsibility

We're encouraging all residents & cabin owners to get on your bikes or in your machines for the upcoming September long weekend, *Nordegg Days* festivities.

We all know the delays we've been experiencing as a result of the Shunda Creek Bridge reconstruction on Highway 11 at the entry to town. Let's help minimize the impact by using the OHV / multi-use trails wherever possible.

The *Nordegg Days* team has been in conversation with the road crews. The traffic lights at the entrance to Nordegg will remain in operation throughout the weekend, making our already busy little intersection especially busy.

Parking will NOT be permitted along Stuart Street during the weekend.
Please use designated parking areas only.

If you can, consider walking, biking, using the OHV / multi-use trails or carpooling to get into town. If you absolutely need to drive, **please ride share whenever possible.**

Nordegg Days is a celebration of our community, our mountains and the people who make this place special. Let's all do our part to make the weekend enjoyable, accessible and safe for everyone.

Park it. Ride it. Share it. Keep Nordegg moving.

See you out on the trails and around town!
